## Grant Writings

### Submitted but not Funded

1. **Heart Health and Nature (H2N): Does Exposure to Nature Benefit Patients with Chronic Heart Failure?** | Discovery Foundation | Total Funding Amount: \$39,752  
Role: Co-Investigator
2. **Closing the Readmissions Disparities Gap (Focusing on Nationwide Medicare Patients)** | Robert Wood Johnson Foundation (RWJF) | Total Funding Amount: \$250,000 (2 years).  
Role: Co-Investigator
3. **Closing the Readmissions Disparities Gap: the Role of Hospital-Community Partnerships (H-CP)** | R21 NIHMD (National Institute on Minority Health and Health Disparities) | Total Funding Amount: \$275,000.  
Role: Principal Investigator
4. **Closing the Readmissions Disparities Gap (Focusing on Southeast Texas Areas)** | Texas Medical Center (TMC) Health Policy Institute Collaborative Grant | Total Funding Amount: \$400,000 (2 years)  
**(Selected as a finalist)**  
Role: Co-Investigator
5. **Response to RFP for Analyzing Anesthesia Care Team Effectiveness** | American Society of Anesthesiologist | Total Funding Amount: \$230,000.  
Role: Co-Investigator
6. **The Impact of Socioeconomic Determinants on 30-day Readmissions and Healthcare Costs** | Robert Wood Johnson Foundation (RWJF) | Total Funding Amount: \$150,000.  
Role: Co-Investigator

## Funded Research

1. Project Title: **The Anesthesia Care Team – Understanding Team Effectiveness** (09/2016-06/2017)  
Funded by National Science Foundation (NSF) I/UCRC & Industry Membership Fees: American Society of Anesthesiologists (ASA) | PIs: Kash & Cheon | Total Funding Amount: \$50,000  
*The goal of this study was to continue to define the “perioperative surgical home” conceptually and in terms of team-based care in particular. Results informed anesthesiologist practice and education.*  
Role: Co-principal Investigator
2. Project Title: **The Role of Disparities in 30-day Hospital Readmission Rates** (09/2015-06/2016)  
Funded by National Science Foundation (NSF) I/UCRC & Industry Membership Fees: Main Line Health (MLH) | PI: Ferdinand | Total Funding Amount: \$50,000  
*The purpose of this project was to identify the social determinants associated with unplanned 30-day readmissions at Main Line Health (MLH), which will aid in the system’s efforts to reduce readmissions among disadvantaged patient populations.*  
Role: Postdoctoral Fellow
3. Project Title: **Avoidable Admissions: The Role of Non-urgent Emergency Visits** (09/2016-06/2017)  
Funded by National Science Foundation (NSF) I/UCRC & Industry Membership Fees: Main Line Health (MLH) | PI: Ferdinand | Total Funding Amount: \$50,000  
*This project aimed to (i) identify the patient-level factors that are associated with avoidable admissions through emergency department (ED) visits, and (ii) discuss the development of targeted interventions that facilitate patients’ use of primary care services.*

Role: Co-Investigator

4. Project Title: **Effectiveness of Population Health Programs and Technology Tools** (09/2016-06/2017)  
Funded by National Science Foundation (NSF) I/UCRC & Industry Membership Fees: HEB | PI: Naufal | Total Funding Amount: \$50,000  
*This project aimed to identify effective workplace wellness programs resulting in positive employees' health outcomes.*  
Role: Postdoctoral Fellow
5. Project Title: **The TEXAS Project: Transitions Explored And Studied: Using Data to Prevent Readmissions in the Texas Medical Center** (09/2015-06/2017)  
Funded by Texas Medical Center (TMC) Health Policy Institute Collaborative Grant | PI: Phillips | Total Funding Amount: \$250,000  
*The goals of this project were to (i) determine which of a number of strategies will be most effective and least costly to reduce unplanned readmissions back to participating acute care hospitals in the TMC, and (ii) assess the validity of existing models used to predict risk of readmission.*  
Role: Postdoctoral Fellow

## Notable Internal Projects

1. Project Title: **Demonstration of an Opioid and Pain Management Stewardship Program at a Multi-Hospital Health-System** (11/2017-present)  
Funded by Houston Methodist Research Institute | PI: Swan | Internal Project  
*The purpose of this project is to develop a set of valid and feasible quality indicators (QIs) using modified Dephi methods that could be used to track opioid stewardship efforts in the hospital and emergency department (ED) settings*  
Role: Postdoctoral Fellow
2. Project Title: **The Effect of Bariatric Surgery for High-Risk Heart Failure Patients with Morbid Obesity** (12/2017-present)  
Funded by Houston Methodist Research Institute | PI: Tariq | Internal Project  
*The purpose of this project is to present a series of cases of morbidly obese, high-risk heart failure patients who underwent bariatric surgery and examine its effects on cardiac function observed during the postoperative period.* Role: Postdoctoral Fellow
